

Credit Card Authorization

*** A Credit Card number must be left on file if you want your Insurance Company or Employee Assistance Program (EAP) to be billed.**

I authorize CounselorBarb™, to keep my signature on file and to charge my credit card for unpaid balances on my account, which may include the following:

- Deductibles and other charges that my health insurance benefit plan indicates is my responsibility (These fees are reflected in the Explanation of Benefits sent to you from your insurance company each time a claim is processed).
- Amounts that my EAP (employee assistance program) does not reimburse.
- Charges for late cancellations, missed appointments, returned checks, and additional services such as phone consultations according to the *Policies and Fees* form.
